2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

There exists a strong mechanism to deal with internal and external examination related grievances. It is transparent, time bound and efficient. Basically, the institution tries to avoid or at least reduce examination related grievances to the minimum level. Student welfare officers and the student's grievance redressal Cells are dynamic enough to attend to the grievances of students. All stakeholders like Students, Parents, Faculty members too are free to approach the officers in charge say, the examination committee Coordinator as for as internal examination are concerned and the office, SWO, Coordinator Grievance redressal Committee, concerned faculty and at the end as a final resort the principal as for as find examinations are concerned.

The mechanism is transparent, time-bound and efficient. Immediately after the internal examinations are over and the assessment work, marks statements are notified on the notice board, problems if any from any students will be attended to on the spot. If related to university, letters will be mailed immediately stating the nature of the problem the students are facing. If required the principal sends a faculty or he himself visits the University to get the work done.

Usually, the grievances comprise spelling mistakes in the name, surname and parents name, with holding of results, wrong entry of marks in the internal examinations, postponement of examinations etc. The faculty, non-teaching staff, Librarian, Physical Education Director and the principal also find out or notice the inconvenience caused to or injustice happened to students and initiate corrective measures. Examinations both internal and external are conducted under the CCTV coverage. After the instructions of the concerned faculty, office people carry out corrective measures. In case of clash in the time-table, non-release of Admission Cards, Non- sending of question papers, University people would be called to set right the issues raised. If any student feels, the marks availed/given are less and confident of scoring more, they would be suggested to apply for recounting and revaluation. Those who attend competitive exams, NCC and NSS Camps are permitted to write exams separately.

There is no compromise with the rules, regulation, and decorum of examinations. Anybody who violates the rules would be punished by sending them out. Thus, the mechanism is said to be transparent, time bound and efficient.
