SHRI SANGAMESHWAR SHIKSHANA SAMSTHA'S

SHRI SANGAMESHWAR ARTS AND COMMERCE COLLEGE

CHADCHAN- 586205 Dist: Vijayapur (Karnataka State)

Re-Accredited At 'B***' (2.83 CGPA) Level By NAAC (3rd Cycle)

Ref No. SSACC/ Central Lib. Non-Visual Desktop ²⁰²⁰ Date: 18/11/2021

Software for Visually Impaired Students:

Central library has the Non-Visual Desktop Access software for the visually Impaired Students.

Non-Visual Desktop Access (NVDA) is a free, open-source (the code is accessible to anyone), portable screen reader software. It has been translated into more than 55 languages, and been used by the people in more than 175 countries.

Major Features:

- Support for popular applications including web browsers such as Mozilla Firefox and Google Chrome, email clients, internet chat software, music players, and office programs such as Microsoft Word and Excel.
- Built-in speech synthesizer supporting over 55 languages, plus support for many other 3rd party voices.
- Reporting of textual formatting where available such as font name and size, style and spelling errors.
- Automatic announcement of text under the mouse and optional audible indication of the mouse position.
- Support for many refreshable braille displays, including input of Braille via braille displays that have a braille keyboard.
- Ability to run entirely from a USB flash drive or other portable media without the need for installation.
- Easy to use talking installer.
- Support for modern Windows Operating Systems including both 32- and 64-bit variants.
- Ability to run on Windows logon and other secure screens.
- Announcing controls and text while interacting with gestures on touch screens.

NLIST

About NLIST

The Project entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)", being jointly executed by the UGC-INFONET Digital Library Consortium, INFLIBNET Centre and the INDEST-AICTE Consortium, IIT Delhi provides for i) cross-subscription to e-resources subscribed by the two Consortia, i.e. subscription to INDEST-AICTE resources for universities and UGCINFONET resources for technical institutions; and ii) access to selected e-resources to colleges. The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can now access e-resources and download articles required by them directly from the publisher's website once they are duly authenticated as authorized users through servers deployed at the INFLIBNET Centre. **Visit NLIST (<https://nlist.inflibnet.ac.in/>)**

WE BELIEVE THAT
every Blind • Vision Impaired person
DESERVES THE RIGHT TO
freely & easily access a computer!

WE CREATE THE SOFTWARE WHICH MAKES THAT POSSIBLE

THE FACTS

Millions of People

There are 285 million blind & vision impaired people in the world. They all have amazing gifts to contribute to society, but they need the right tools to realise their dreams.

Technology Is The Key

Technology opens up so many doors. But for those of us without sight, computers don't work straight out of the box. Software called a "screen reader" is needed to translate visual information verbally, so we can make sense of what is on screen.

The Issue

Unfortunately many screen readers cost thousands of dollars — often more than the computer itself. This holds millions of people back from affording to use a computer and discovering their potential.

A Free Solution

We have spent the last 12 years developing the global solution: a free, high quality screen reader, accessible to all! We have already enabled 100,000+ people to gain freedom, education and employment!

HOW TO GET INVOLVED

WHAT OUR USERS SAY

"I am so thankful for the creation of NVDA. It has really changed my life. With NVDA, I do not have to worry about spending tons of extra money on third party software to use a computer. I can purchase any new computer that I want, and I can use it for the same cost as a sighted person."

– Reina Brown, United States

NV Access is a registered charity and software development company.

We are the creators of NVDA, a free, open source, globally accessible screen reader for the blind and vision impaired.

1. Introduction

Welcome to NVDA!

NonVisual Desktop Access (NVDA) is a free and open source screen reader for the Microsoft Windows operating system. Providing feedback via synthetic speech and Braille, it enables blind or vision impaired people to access computers running Windows for no more cost than a sighted person. NVDA is developed by [NV Access](#), with contributions from the community.

1.1. General Features

NVDA allows blind and vision impaired people to access and interact with the Windows operating system and many third party applications.

Major highlights include:

- Support for popular applications including web browsers, email clients, internet chat programs and office suites
- Built-in speech synthesizer supporting over 80 languages
- Reporting of textual formatting where available such as font name and size, style and spelling errors
- Automatic announcement of text under the mouse and optional audible indication of the mouse position
- Support for many refreshable braille displays, including the ability to detect many of them automatically as well as braille input on braille displays with a braille keyboard
- Ability to run entirely from a USB flash drive or other portable media without the need for installation
- Easy to use talking installer
- Translated into 54 languages
- Support for modern Windows Operating Systems including both 32 and 64 bit variants
- Ability to run during Windows sign-in and at secure screens
- Announcing controls and text while using touch gestures
- Support for common accessibility interfaces such as Microsoft Active Accessibility, Java Access Bridge, IAccessible2 and UI Automation
- Support for Windows Command Prompt and console applications
- The ability to highlight the system focus

1.2. Internationalization
