CRITERION VII - INSTITUTIONAL VALUES AND BEST PRACTICES

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust

Institutional Distinctiveness

2020-21

7.3 - Institutional Distinctiveness

The institution is to impart excellent education in arts, commerce, computer applications and social work to the utmost satisfaction of the students and stakeholders. To provide dedicated, committed services to economically challenged rural students through effective teaching. To develop academic excellence and character building. To empower students to learn through sharing, enhance team work, leadership qualities and provide extension services to themselves and society.

Our students should be knowledgeable, polite, conscientious, physically and mentally, healthy, practically efficient, self-motivated, morally strong, well adjusted and well-integrated. To prepare them for their future, we teach them to gain knowledge and become independent. The majority of the students come from rural backgrounds and they belong to weaker sections of the society. Their main occupation is farming and they are engaged in agrarian activities. To promote learning among them, we adopt different teaching methods, namely experimental learning, participative learning and problem-solving methodologies are used for enhancing learning process.

Institution always practices intensive and inclusive improvisation strategies according to the needs of students to facilitate their academic progress. The college organises the various curricular and extra-curricular activities which are organised by all departments, NCC, NSS and YRC units.
